

# Jet Clean DF Dust and Fume Collector

**Jet Clean DF** portable cartridge filter dust and fume collectors are designed as a cost-effective, highly efficient solution for filtering of dusts, fumes, smoke, gasses and vapors.

Maintaining filters at optimum efficiency has always been a problem for traditional collectors, especially for welding fumes and dust. The **Jet Clean DF** line of collectors offers a state-of-the-art system – a portable unit with long-lasting cartridges and a fully **AUTOMATIC** compressed air cleaning system – exclusive of Coral design & like no others in its class.

Extremely quiet plug-n-go operation, combined with incredible maneuverability and a powerful 1, 1.5 or 3 horsepower motor make the Jet Clean DF an ideal solution for a wide variety of process applications.

- Ultra Low Maintenance
- Plug-N-Go Operation on 110V Units
- 99.9% Filter Efficiency
- 360° Evolution Extraction Arm for Precise Positioning
- Filter Monitor Gauge
- 1 HP, 1.5 HP & 3 HP Models
- Automatic Pulse – Jet Filter Cleaning
