

**PTM centers and face drivers ensure
best performance,
highest accuracy & longest life**

**Save time & keep machining costs
at a minimum with PTM's wide
selection of interchangeable points**

**We also offer custom centers to meet our
customers' specific
requirements, with quick
turnaround and very reasonable prices.**

**Customer feedback tells us PTM can hold
tolerances that the competition can't!**

We purchase PTM live centers and dead centers from ITA for a variety of reasons. Their centers with interchangeable point are an advantage for us, saving us money as well as saving us time. We find them to be high precision, high quality and they function very well. They manufactured special dead centers exactly to our specifications with a quick turnaround.
